

SQL DATA BASE DEVELOPER/DBA

Positions: Software Developer – II / Software Developer - III

Requirements:

10+ years' experience as a SQL Database Developer
(BTech/MTech in Computer Sciences from good engineering colleges preferred)
Someone with good hands on- MS SQL, Asp.Net, Data Structures and Algorithms

WFH applicable due to covid-19

Email- cv@gtropy.com

Web- www.gtropy.com

Perks:

5 days working, Flexible working hours, WFH, Medical Insurance, Exciting promotions & Appraisals and most importantly become a part of a dynamic and fun team of entrepreneurs from IIT, IIM and BITS Pilani 😊

The Must haves:

- Strong experience as a SQL Database Developer with strong knowledge in implementation, configuration, maintenance, and performance of critical SQL Server RDBMS systems, to ensure the availability and consistent performance of our corporate applications.
- Knowledge of MS SQL Architecture, Backup & Recovery, DB Refresh
- SQL Server Log Shipping setup, SQL server Mirroring setup
- Knows to detect & resolve issues related to CPU; Memory; I/O disk space etc., which indirectly necessitates strong OS knowledge
- In-depth knowledge of relational database design, T-SQL, creating stored procedures, views, user defined functions and triggers
- Strong analytical and critical thinking skills, with ability to analyze business requirements to determine processing flow, user requirements and inter-dependencies of multiple information systems
- Strong problem-solving skill with the ability to analyze and break down a problem to identify root cause
- Strong in performance tuning especially tuning complex queries, procedures and indexing strategies
- Adapting ETL processes to accommodate changes in source systems and new business user requirements
- Should have a strong focus on analyzing the database design, troubleshooting, Query Optimization, fine-tuning the performance, and monitoring of system health, to ensure high levels of performance, availability, and security.
- Working with both technical staff and business partners to translate requirements into technical implementations
- DBA Support for DB related production issues and quick resolution for the same.

Meanwhile, give it a thought for the below ramblings:

- What is the toughest computer science problem that you have ever solved?
- While coding, do you ever think why the CPU of your program gets increased at times?
- When you have designed the Data Structures, do you target achieving logarithmic time complexity, because if you think quadratic, the scale at which we run, it would never be able to finish its respective loops!
- Do you like to work in multiple programming languages!
- Have you ever tried solving loop unwinding and loop unrolling in real world problems!
- Have you ever designed a state machine for solving String-Matching problems?

We at Gtropy literally solve such problems, if such engineering ramblings excites you, GTROPY is definitely for you.

We are looking for self-motivated computer science engineers, who just not only roll up their sleeves but make sure to riddle out such unconventional problems with a Thug Life.

ABOUT US:

Gtropy is a renowned brand ventured by a passionate team from the world's most eminent institutions. We are dedicated to the field of GPS Based Fleet Management Solutions and its exhaustive Data Analytics. Proficient in providing valuable solutions, we cater to diverse clients from all verticals. Our aim is to set benchmarks for analytics in the Logistics Industry in terms of imparting avant-garde solutions, high-quality services, and seamless support to our customers.

Progressively we have established ourselves as one of the most trusted GPS Vehicle Tracking Solution providers among our esteemed partners and well-satisfied customers. As of now, we have 1,00,000+ Live vehicles to our credit with quarterly growth of 40%. Our gigantic network of 350+ partners reflects our success story.

Gtropy has an array of solutions for every Industry type in the Logistics domain that help in the management of Logistics Operations, Passenger Transportation, Fleet Management, Supply & Distribution as well as pickup and drop services.

GTROPY's FORTE:

PRODUCTS

GPS TRACKING SYSTEM
LIVE VEHICLE TRACKING
ASSET TRACKING
FLEET MANAGEMENT
LOCATION ANALYTICS
FASTAG

SOLUTIONS

TRANSPORT MANAGEMENT
FLEET MANAGEMENT SOLUTIONS
SUPPLY CHAIN ANALYTICS
LOGISTICS MANAGEMENT SOLUTIONS
FASTAG SOLUTIONS
EXPENSE MANAGEMENT

INDUSTRIES WE CATER

- CARGO AND LOGISTICS/TRANSPORTATION
- OIL & GAS
- MINING INDUSTRY
- HEAVY MACHINERY/EQUIPMENT
- SUPPLY & DISTRIBUTION CHAIN
- CONSTRUCTION
- FMCG
- COMMERCIAL/TOURIST VEHICLES
- AGRICULTURE
- WASTE MANAGEMENT
- CABLE AND TELECOM
- GOVERNMENT & PUBLIC SAFETY

- OTHERS: GPS vehicle tracking is not limited to these industries, it can be used to field-based fleets or assets, there are many industries which rely on assets for day to day operations, installations, service mobile companies, cable operators, restaurants etc.
